

## A CLEANER FUTURE POWERED BY THE SUN

With the Solar Power Plant (SPP) project implemented at our hotel, we are both protecting nature and contributing to sustainable tourism.

According to our results for the January–August 2025 period:

### **Carbon Dioxide (CO<sub>2</sub>) Avoided: 624.22 tonnes**

We made a significant contribution to the environment by preventing the release of 624.22 tonnes of carbon dioxide (CO<sub>2</sub>) into the atmosphere.

### **Standard Coal Saved: 525.66 tonnes**

We saved 525.66 tonnes of standard coal.

### **Contribution to Nature (Equivalent Trees): 853 Trees**

This achievement provides a benefit equivalent to planting 853 trees in nature.

In this way, we are both reducing our energy costs and working to leave a cleaner world for future generations.

 With the contribution of our valued guests, we are making sustainability a way of life and fulfilling our responsibility to nature together.
